EMORY UNIVERSITY
A DIVERSE, INVOLVED COMMUNITY
IN ATLANTA, A CITY RICH WITH OPPORTUNITY
EMORY IS BOLD LIBERAL ARTS PLUS FEARLESS RESEARCH
PREPARING STUDENTS TO CHANGE THE WORLD
ACADEMICS

AT EMORY, undergraduates benefit from an unusual combination—the strong teaching and personal connections of a liberal arts college, paired with the resources and expertise of a top research university.

This combination makes a difference. Students gain access to groundbreaking ideas and minds, explore with a vast array of tools, and make creative and interdisciplinary collaborations.

OUR FACULTY—leading scholars, teachers, and experts—set the tone in our intellectual community, where learning extends into after-class conversations and mentoring, and students gain inspiration from their enthusiasm.

Emory offers an unusual number of academic choices, from undergraduate colleges to majors to preprofessional paths, giving students many ways to find their right fit. And learning across majors is enriched by the city of Atlanta, where students can gain experience and begin to set their sights on the future.

APPLYING KNOWLEDGE

Emory students are using what they learn in the classroom to make a difference in the world. Through research, internships, and off-campus study, our students contribute to discoveries, tackle difficult issues, and gain a global understanding. After graduation, they have experience to build on for meaningful change.

UNEXPECTED CHOICES

TWO PLACES TO START
Students can apply to and begin their four years at Emory University at either Emory College or Oxford College.

- **Emory College**, on the university’s Atlanta campus, is a rigorous liberal arts experience in a research university setting. Professors are the leading scholars in their fields, and learning is enriched by research, internships, and a community of bright, involved students.

- **Oxford College**, on Emory’s original site in Oxford, Georgia, 38 miles from Atlanta, is a rigorous liberal arts experience on a close-knit campus of first- and second-year students. Professors excel at the art of teaching and reaching students, and undergraduates are known for their leadership. All Oxford students spend their junior and senior years in Atlanta.

FOUR UNDERGRADUATE COLLEGES
Students spend their first and second year at either Emory College or Oxford College, and then they decide to continue at **Emory College for a BS or BA**, apply to **Emory’s Goizueta Business School for a BBA**, or continue to our **School of Nursing** to earn a BSN.

FIRST-YEAR GUIDANCE
Every first-year student has an advising team—a faculty adviser, resident adviser, sophomore adviser, and peer orientation leader—to provide insight and guidance as they adjust to life on campus and aim to get the most out of their four years at Emory and beyond.

WHY STUDY LIBERAL ARTS?
Liberal arts is the study of subjects including science, languages, philosophy, literature, and math that teaches students to write, think critically, and solve problems. It’s a foundation for students, but also for humanity, preparing graduates to serve, lead, and—yes—change the world.

- 24 average class size at Emory College

**OXFORD COLLEGE**
- 96% of Oxford College classes have fewer than 30 students
- 20 average class size at Oxford College
COMMUNITY

Both Emory campuses are full of bright, engaged, and committed students. Together, they form a community that shares our values of intellectual curiosity, diversity, and service. Our students are ready to make a difference at Emory and in the world around them.

EMORY COLLEGE students benefit from their close proximity to the undergraduate schools of nursing and business as well as Emory’s seven professional and graduate schools. It’s liberal arts learning at the core of a great research university—synergy that expands each student’s education and opportunities. First-year residence halls are situated at the center of campus, close to anything students want to do.

OXFORD COLLEGE students live and study in the historical heart of Emory. Liberal arts is done differently here. Students apply what they’ve studied in the classroom to real-world situations—asking questions and then evaluating and analyzing classroom learning to arrive at viable solutions. On this campus, students get to know each other well. Every campus building is no more than a five-minute walk from residence halls.

EXTRAORDINARY ACTIVITIES

Emory students learn by doing—inside the classroom and out. There are multiple ways to get involved, lead, and explore new ideas and interests through extracurricular pursuits.

- With 18 varsity sports at Emory College and 9 at Oxford College, Emory Eagle student-athletes soar. Or they excel on the ground in club or intramural sports.

- With 445 undergraduate clubs and organizations between the two campuses, including the Student Government Association, the Student Programming Council, and Volunteer Emory/Oxford, students can practice leadership as soon as they arrive on campus.

- Arts at Emory sponsors 300+ events each year, where students have a creative outlet as performers or audience members.

- Emory traditions, including Songfest, Dooley’s Week, Wonderful Wednesdays, Cookies at Candler, and the annual Jimmy Carter Town Hall, bind past and present Emory students together in shared experiences.
Oxford College hosts the annual SOUTHERN CIRCUIT FILM SERIES, bringing a variety of independent films and their filmmakers to campus.

Sustainability: Emory has committed to a zero-waste POLICY with a goal of diverting 95% of waste from municipal landfills by the year 2025.

On Emory College’s renowned BARKLEY FORUM DEBATE team, students hone and persuasively win arguments.

Emory Libraries hold MORE THAN 4 million PRINT AND ELECTRONIC BOOKS with celebrated special collections in poetry, prose, and literature.

Oxford College’s 11-acre ORGANIC FARM provides food and serves as a learning laboratory.

Both campuses FIELD CHAMPIONSHIP TEAMS: men’s and women’s swimming, men’s golf, and women’s volleyball on the Atlanta campus and men’s and women’s tennis on the Oxford campus.

The MICHAEL C. CARLOS MUSEUM holds the largest collection of ancient art in the Southeast.

Imani’s major allows her to explore the world while staying firmly planted at Emory, where she’s involved in a number of activities. She volunteers through her sorority and serves as a Writing Center tutor, on the Honor Council, and as a resident adviser.

Despite her many on-campus pursuits, she’s managed to study abroad with the Human Health in Paris program. “It was so amazing living in Paris in an apartment. It was a good way to truly be a part of the culture,” she says. “It gave me a sneak peek into living abroad for a career and long-lasting friendships as well.”

An Oxford continuee, Ramsey took Stacy Bell’s Memoirs in Prison class. She took them to several Georgia state prisons, “which helped us shatter our pre-conceived notions of what prison is,” he says. “We learned to see the prison-industrial complex rather than look away from it.”

At Emory College, he chose his major to focus on projects that mattered to him. “I designed an independent study course and applied for grants to do research back home in Taiwan,” he says. “I’m working on a graphic novel about a period of governmental brutality in Taiwan known as the White Terror.”

Megan’s field studies class sold her on environmental sciences as her first major. “I loved everything we did and learned, from taking field trips to Stone Mountain, to hiking around campus looking at trees, to identifying birds.”

She served last year as CEO of Phi Eta Sigma, the first-year honor society. It’s a role that expanded her outlook, she says. “I have learned a lot about leadership, delegation, and setting expectations. I am so appreciative to have led such a prestigious organization and impact so many academically achieving first-year students.”
Atlanta is a place where students can get ready for what comes next. This progressive, global city is home to more than a dozen Fortune 500 companies. It’s a hub of young talent and abundant opportunity—a pipeline to internships and jobs.

THERE’S PLENTY TO DO IN ATLANTA FOR FUN AS WELL—sports, the arts, the outdoors, or dining. Our hometown is a world-class city with something for every taste and interest. When students take a break from studying, they enjoy:

- Piedmont Park, a 189-acre green space in Midtown Atlanta, also home to music and arts festivals
- The many types of food found here—from Krog Street Market’s eclectic food court to fine dining and Southern cuisine as well as affordable ethnic foods on Buford Highway
- Exploring the city by foot, bike, or scooter on the BeltLine, a pedestrian corridor that loops around Atlanta
- Listening to music in a variety of venues—concert halls, small listening rooms, or an arena
- Atlanta United soccer (and our other sports teams too)—cheering them on to a second MLS Cup win
- The High Museum of Art, with its celebrated collections and exhibitions, along with other museum and art spaces around the city
COVINGTON

OXFORD COLLEGE IS 45 MINUTES FROM ATLANTA AND JUST MINUTES AWAY FROM COVINGTON, a small town with a youthful vibe. Students walk, ride, or bike to Covington restaurants and shops in its historic town square. The town is also a favorite location for Georgia’s thriving film industry. Oxford students have access to shuttles frequenting local shopping districts, which also travel to and from Emory’s Atlanta campus several times a day—more frequently on weekends.

- Emory was founded in the town of Oxford in 1836, one mile north of Covington.
- The town of Oxford and parts of Covington are listed on the National Register of Historic Places.
- More than 60 TV programs and movies have been filmed in and around Covington.

ATLANTA IS

- Centerpiece to the nation’s 3rd-largest film industry (Georgia)
- Home to nearly 70 full and honorary consulates
- A health care leader with the CDC, the American Cancer Society, CARE, and thriving health IT and biosciences industries located here
- Home to the world’s busiest airport, making it easy to travel anywhere
- A verdant city with a temperate climate and welcoming spirit

EMORY GRADUATES—no matter their major—are successful. But there’s more to the story than that. While our graduates excel in their chosen fields, they share a purpose—to make the world a better place. Their purpose happens to echo the university’s mission, and that makes us proud.

CLASS OF 2018

Within just months of graduation, Emory University 2018 graduates were pursuing the following paths. (All outcome statistics include students who start at Oxford College and Emory College.)

**EMORY COLLEGE**

- **43%** Employed
- **38%** Continuing Education/Fellowships
- **5%** Postgraduate Internships
- **3%** Return to Home Country
- **2.6%** Gap Year/Volunteer/Not Actively Seeking
- **.4%** Military
- **8%** Currently Seeking Opportunity

(87% Response rate)

Emory’s mission is to ‘create, preserve, teach, and apply knowledge in the service of humanity.’ In fulfilling that mission, we make a commitment to bring together the expertise, talent, and passion of our faculty, students, staff, and alumni for the common good.

We are committed to thoughtfully guiding your family through the financial aid process. We meet 100% of demonstrated need for all accepted domestic students.

**NEED-BASED AID**

A family’s entire financial portfolio—income, assets, and other earnings—will be considered for eligibility to receive financial aid. Applicants should submit the FAFSA and CSS PROFILE, along with parent and student tax returns.

Financial aid can consist of grants, loans, work-study, and scholarships. Emory Advantage makes educational costs affordable for qualified families earning $100,000 or less.

International students seeking financial aid should apply under our Regular Decision plan and submit the Financial Certification Form and CSS Profile.

**MERIT SCHOLARSHIPS AND SCHOLAR PROGRAMS**

Emory offers partial to full merit-based scholarships as part of the Emory University Scholar Programs. There is no separate application for these programs.

Our scholar programs provide additional programming and resources to help exceptional students make an impact at Emory and beyond.

The Robert W. Woodruff Scholarship, our most prestigious, is named for a former president of The Coca-Cola Company who gave generously to arts, education, and humanitarian efforts in Atlanta throughout his lifetime.

**STEPS TO APPLY FOR FINANCIAL AID**

- Complete the FAFSA
- Complete the CSS Profile
- Submit parent tax returns through IDOC
- Submit student tax returns through IDOC, if applicable
- Submit noncustodial parent tax returns through IDOC, if applicable
